CREATING THE RIGHT SPACE YOUR GUESTS WILL WANT TO COME BACK TO

From hotels to holiday homes to high end Airbnb ... the discerning traveller is looking to escape and somewhere to relax, unwind and recharge. They are expecting luxury and comfort from the moment they step across the threshold.

Creating the perfect environment for your guests may not require a full refurbishment. Often it is the little things that can make the biggest impact.

Tackling everything at once can seem a bit daunting and too much right now. Why not focus on one area at a time.

BRINGING HOMES TO LIFE

Interior design is the difference between selling a lifestyle as opposed to a house. Your potential clients need to imagine themselves living in a space, thinking about where Grandad's antique chair will fit and whether they're able to entertain the whole family.

Working together we'll design a unique space that will enable your clients to easily visualise their new home; by bringing life, mood and practicality to the house. Showing a home that truly reflects your potential clientele, business image and location.

MAKING YOUR HOUSE, YOUR HOME

I listen to your wishes, ideas and aspirations for your home and develop these into something incredible. I bring your dreams to life, help you put colours together with confidence whilst not forgetting the finer details.

Your home tells a story. Interior design is not just about the latest design trends, the newest fabrics and colour combinations. Using colour, lighting, furniture and soft furnishings to create the ambience that you desire.

It's about you, your personality and what story you would like your home to tell. A room should create the mood it is intended for.

A bit about me....

I am passionate about helping clients turn their dreams and aspirations into a beautiful space that is a true reflection of themselves or business. I have a BA honours design degree and have been working in the industry for over 20 years.

I can, on your behalf, manage your project from start to finish. Design a scheme from your brief through to complete installation and onsite styling and dressing. I can take responsibility for early selection of materials, plan and organise.

Working closely with my clients and developing a trusting relationship is important and imperative to an interior scheme that works!

Are you ready to dive into the possibilities? Then please get in touch to arrange a site visit.

Testimonials

"Elaine really helped us visualise how the space could look, and enabled us to make bolder choices. She also took the concept we liked and went and found some lovely, yet affordable pieces that complimented the overall look. We are thrilled with how our new reception worked out, and couldn't have achieved this without Elaines guidance."

Arron Howle, Peartree Serviced Apartments

"Elaine is great to work with, she tried hard to get to know our style and taste and then produced something perfect but 100 times better than anything we could have come up with. She has a wonderful eye for style, colour and contrast. We're so happy with our design and are very excited about the next phase."

Kirsty Lester, Dorset

"Elaine Has worked with us on a number of our show homes and the experience is always a refreshing one. From the design brief to the show home experience she manages the project throughout and always delivers on time. Using her experience and contacts within the industry allows her to bring interiors together in various styles and budgets, creating elegant rooms that help sell our homes and never fails to exceed our expectations."

Clare Biddlecombe, LiveWest

"I'm over the moon with the room... a huge thank you to you."

I smile every time I walk in there..."

Karen Millington-Burnet
